

ADVANCED CHEMICAL STORAGE & SAFETY CABINETS

Chemicals, Acids & Bases Safety Cabinet

Corrosion-resistant segregated storage for acids and bases.

DESCRIPTION

Corrosion-resistant cabinets with separate compartments, so acids and bases are stored in one footprint without sharing an atmosphere. Liners, shelves and vent paths are specified for the vapours rather than for appearance.

APPLICATIONS

Concentrated acid and base storage, wet chemistry benches, sample preparation areas.

METHOD & COMPLIANCE REFERENCE

Segregation per safety data sheet incompatibility; ventilation connected where the contents require it.

SUPPLIED AND SUPPORTED IN BANGLADESH

- Import, customs, delivery, site preparation and installation.
- IQ/OQ qualification, scheduled calibration and validation support.
- Genuine spare parts, consumables and operator training in Dhaka.

Specifications, capacities and model options vary by configuration and are confirmed with each quotation. This sheet is generated from our product catalogue; the full manufacturer datasheet is available on request.
