

DIGITAL LABORATORY PLATFORMS

eQMS & Digital Document Control

Principal: LabWare

Electronic quality management with controlled documents, versioning and approval routing.

DESCRIPTION

Holds SOPs, specifications and protocols under version control with electronic review and approval, so only the current effective version reaches the floor and the change history stays intact. Periodic review dates are tracked by the system rather than remembered by a person.

APPLICATIONS

SOP and specification lifecycle, controlled forms, training-linked document release.

METHOD & COMPLIANCE REFERENCE

Document control expectations under EU GMP Chapter 4; electronic signatures per 21 CFR Part 11.

SUPPLIED AND SUPPORTED IN BANGLADESH

- Import, customs, delivery, site preparation and installation.
- IQ/OQ qualification, scheduled calibration and validation support.
- Genuine spare parts, consumables and operator training in Dhaka.

Specifications, capacities and model options vary by configuration and are confirmed with each quotation. This sheet is generated from our product catalogue; the full manufacturer datasheet is available on request.
