

LABORATORY INSTRUMENTATION & PROCESS SYSTEMS

Online Checkweigher

In-line weight verification and rejection of out-of-specification packs.

DESCRIPTION

Weights every pack as it moves along the line and diverts anything outside the set limits. Because running weights are logged, a drift in the filling machine appears as a trend well before it becomes a batch of rejects.

APPLICATIONS

Fill weight verification on bottles, sachets, blisters and cartons; average-weight compliance for prepacked goods.

METHOD & COMPLIANCE REFERENCE

Automatic catchweighing instruments are covered by OIML R51 and by national prepackage rules.

SUPPLIED AND SUPPORTED IN BANGLADESH

- Import, customs, delivery, site preparation and installation.
- IQ/OQ qualification, scheduled calibration and validation support.
- Genuine spare parts, consumables and operator training in Dhaka.

Specifications, capacities and model options vary by configuration and are confirmed with each quotation. This sheet is generated from our product catalogue; the full manufacturer datasheet is available on request.
