

PHARMACEUTICAL STANDARDS & SPECIALTY CHEMICALS

Organic & Inorganic Chemicals

General laboratory chemicals across organic and inorganic ranges.

DESCRIPTION

General laboratory chemicals across organic and inorganic ranges, in analytical, HPLC and spectroscopy grades. The grade sets the baseline you can achieve, so a solvent chosen on price alone usually costs more in re-runs than it saved on purchase.

APPLICATIONS

Mobile phase preparation, sample dissolution, buffer and reagent preparation, general laboratory use.

METHOD & COMPLIANCE REFERENCE

Grade selected per the method; certificate of analysis with each batch.

SUPPLIED AND SUPPORTED IN BANGLADESH

- Import, customs, delivery, site preparation and installation.
- IQ/OQ qualification, scheduled calibration and validation support.
- Genuine spare parts, consumables and operator training in Dhaka.

Specifications, capacities and model options vary by configuration and are confirmed with each quotation. This sheet is generated from our product catalogue; the full manufacturer datasheet is available on request.
